

PRODUCT IMPROVEMENT COMMUNICATION

PIC 001: Blue Safety Light

Product Improvement Communications (PIC): The PICs are instituted in order to communicate product improvements, new product developments and the various services E80 Inc. has to offer. It is our goal to be the world's premier provider of solutions that optimize the Value Chain of companies in the Consumer Products industry.

PIC 001: Blue Safety Light

Safety is our #1 Priority - Anticipate Movements Before They Happen

Description:

This Product Improvement Communication (PIC) is targeted at Laser Guided Vehicle (LGV) systems. Elettric80 is now offering a hardware upgrade to existing customers to integrate a Blue Safety Light on LGVs in order to provide a visual indication of the LGV's intended path. The Blue Safety Light is an additional device that will emit a focused beam of light on the floor to identify the path of the LGV. The upgrade is optional and can provide an enhancement to the existing audible and visual safety devices.

Benefits:

- Low Cost
- Easy Installation
- Promotes LGV Awareness
- Contributes to prevention of collisions
- Heightens Pedestrian and Cross Traffic LGV presence
- Customizable for areas within the facility. You choose where it can be utilized.

Elettric80 is committed to supporting customers for the safe lifecycle of equipment. We understand that hardware, software and safety improvements are critical to the success of our customers and offer various After Sales products, solutions and support. Please contact your After Sales Account Manager for any questions or further information.

Elettric 80 Spa is ISO 9001:2000 certified, and has extended this quality thinking into a sophisticated toolbox of business tools, giving our customers a detailed overview of the technology they have purchased and a guarantee of high quality after sales support.
