

PRODUCT IMPROVEMENT COMMUNICATION

PIC 006: MESSAGE NOTIFICATION SYSTEM

Product Improvement Communications (PIC): The PICs are instituted in order to communicate product improvements, new product developments and the various services E80 Inc. has to offer. It is our goal to be the world's premier provider of solutions that optimize the Value Chain of companies in the Consumer Products industry.

PIC 006: Message Notification System

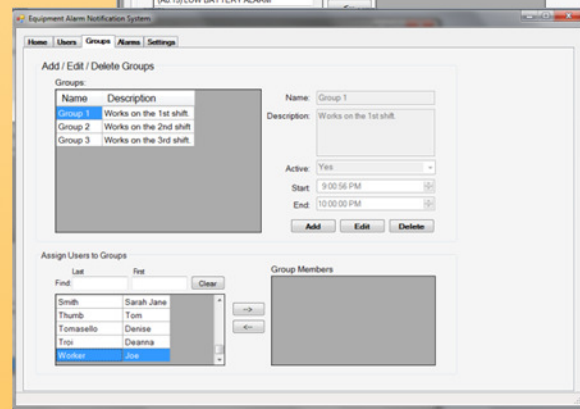

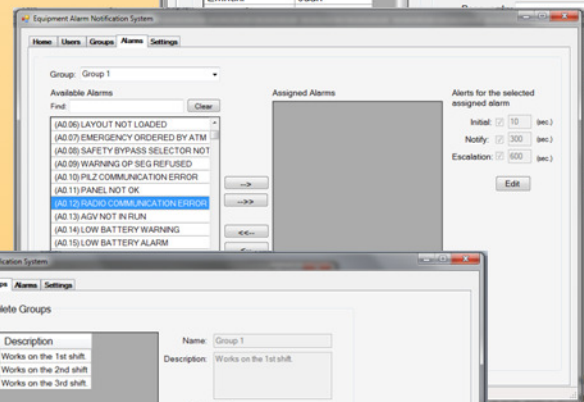

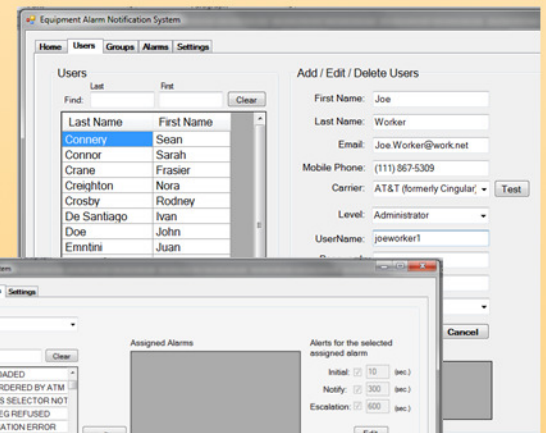

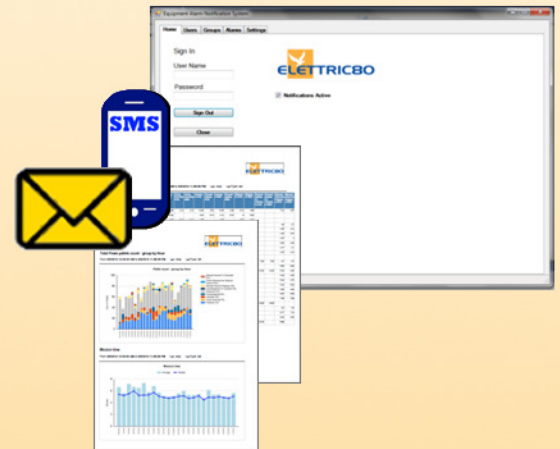

Improve Resource Utilization with Enhanced Communication!

Description:

This Product Improvement Communication (PIC) is targeted at a stand-alone application that works together with the existing LGV system. This application allows you to put in place a messaging system with little or no additional infrastructure.

Benefits:

- **Send Notifications to Anyone, Anywhere:**
Anyone with a mobile phone, tablet or email access can receive notifications, either SMS or email, eliminating the requirement that personnel must be near the equipment or Client Application to be notified of critical information
- **Reduced Downtime:**
With timely notifications and reminders, this will allow for more effective task management
- **Flexible Configuration:**
Configurable users and groups that give great flexibility to fit various shift and organization models
- **Send Scheduled System Reports:**
Provides a platform to send existing system reports via email to specified users. For example: Sending system missions or performance reports to supervisors
- **Send Important System Status Notifications:**
Provides a platform to send system customized status notifications to specified users. For example: Warehouse capacity usage

Eletttric 80 Spa is ISO 9001:2000 certified, and has extended this quality thinking into a sophisticated toolbox of business tools, giving our customers a detailed overview of the technology they have purchased and a guarantee of high quality after sales support.
